

SNT-SAC136B

SNT-SAC136B is a new technology which designed to hold both 3.5" SATA or SAS internal hard drive. This product is made with Aluminum material which provides reliable hard drive protection and best heat sink. 8x8cm cooling fan in the bottom helps taking out the heat through the entire hard drive, it avoids overheating and HDD failure. Perfect fit and easy mount in 5.25" drive bay with safety lock. It is a durable and high quality product you must get.

- Interface: SAS & SATA
- Support SAS, SATA-I, SATA- II
- High performance : Up to 150MB/s, 300MB/s
- Material: Aluminum
- Cable less HDD Connection
- Support Hot-swappable
- Power: 15Pin SATA power connectors
- Turbo 8*8cm bottom cooling fan x 1
- High/Low speed adjustable fan speed
- 2 LED for Power & HDD access
- Support Plug & play / hot swappable
- Dim: 180(L) x 146(W) x42(H)mm
- Weight: 2lbs / unit, 40lbs / Box, 20pcs / Box
- RoHS ready
- Color: Black
